

USCGC ESCANABA (WMEC 907)

Command Philosophy

“The Spirit Lives On”

Vision – My goal is to ensure the ESCANABA has a climate where everyone belongs, where everyone is valued, and where everyone works together to achieve the mission.

Awareness – Understand yourself, your shipmates, and the ship.

By observing your surroundings and seeking to better understand yourself, you can find all the needed details to inform your life goals; personally, and professionally. Additionally, your awareness of your shipmates will help you to know them better and help them to achieve their goals. Together we will work to maintain and sustain ESCANABA.

Analysis – Think about the inputs from around you and investigate their meaning.

Take the time to develop a plan and consider how your actions have an impact on others. Determine how you influence the ship and the climate for your shipmates.

Action – Be deliberate in your actions.

Understand yourself and those around you and take the correct action. Whether that be in your professional duties, your care for others, or your contribution to morale and wellbeing. Having a positive attitude is contagious.

Remember, indifference is not action, don't let this life experience pass you by, be a part of it!

Never forget, my goal is to be here for you, to help everyone reach their goals, to see that all are valued, and to achieve success together. If you ever need me, I am here.

CDR Jared Silverman
Commanding Officer
