

U.S. COAST GUARD EIGHTH DISTRICT
GULF OF MEXICO OUTER CONTINENTAL SHELF
MARINE SAFETY INFORMATION BULLETIN
HURRICANE SEASON REPORTING REQUIREMENTS

MSIB 20-04

29 May 2020

In 2014, the Eighth Coast Guard District implemented a “report by exception” OCS hurricane evacuation reporting policy. This policy will continue for the 2020 Hurricane season. The Eighth Coast Guard District is requesting that operators of ALL manned facilities and Mobile Offshore Drilling Units (MODUs) report only when personnel, who otherwise intended to evacuate the unit due to approaching heavy weather, were stranded on board AND not able to evacuate due to extreme circumstances; or if a MODU intends to, but is unable to relocate for storm avoidance. Reports of personnel remaining offshore will allow the Eighth District to prepare for potential post-storm search and rescue operations. For OCS facilities with an approved Emergency Evacuation Plan pursuant to 33 CFR 146, we request that you notify the Eighth District anytime personnel will remain on board in exception to your approved plan or if you are not able to execute any portion of your plan related to heavy weather preparations. All reports should include the location of the facility or MODU, the number of personnel to be left on board, and the means by which the operator and/or the Eighth District can communicate with the facility or MODU. Notification shall be made to the Eighth District by contacting the following:

Email: D8CCwatch@uscg.mil and OCScorrespondence@uscg.mil
Phone: 504-589-6225

This policy is designed to reduce duplicative effort and emphasis following the Bureau of Safety and Environmental Enforcement reporting requirements, per 30 CFR 250.192. However, there will be times in which Coast Guard personnel may reach out to particular units or companies in an attempt to gather additional information related to specific weather events. This outreach should not be construed as additional requirements but viewed as requests for information to support overall Coast Guard hurricane planning and response efforts. Your cooperation in these efforts is greatly appreciated.

For questions or clarification on this MSIB, please contact my office at (504) 671-2106.

Sincerely,

LCDR Micky Dougherty
