## NAVIGABILITY DETERMINATIONS FOR THE NINTH DISTRICT

Attached is a listing of navigability determinations for waters in the Ninth Coast Guard District. This listing is maintained in accordance with Title 33, Subpart 2.10 of the Code of Federal Regulations.

It is intended to supplement Ninth Coast Guard District's Navigable Waterway Determinations listing available via our website, [www.uscg.mil/d9/d9legal/waterways.asp](http://www.uscg.mil/d9/d9legal/waterways.asp).

If a body of water is not listed here, it may still be navigable. Navigability may also be determined by Congress, the Federal Courts and the U.S. Army Corps of Engineers. Likewise, absence of a determination does not mean a specific body of water is not navigable. Absence of a determination means only that the Coast Guard has not made a navigability determination.

- |                          |                        |                                  |
|--------------------------|------------------------|----------------------------------|
| 1. North Lake (source)   | 35. Sucker Lake        | 69. Loon Lake                    |
