

# Renter's Insurance

**Protection at home:** In most cases, your landlord won't cover your stuff when something is stolen or if there's a fire or flood. USAA Renters Insurance can.

**Protection in your car:** Your auto insurance may not provide coverage if something is stolen from your car — clothes, sporting equipment or other personal property. USAA Renters Insurance can.

**Your stuff is expensive:** The average renter has more than **\$20,000 in belongings**. Could you afford to replace everything you own?

*Many people don't get renters insurance because they don't think their belongings amount to much. But the average two-bedroom residence can contain more than \$20,000 in property.*
