

# Sector Key West

Command Philosophy  
Captain Jason D. Ingram

## People

People are by far our most important and greatest asset. Always treat everyone with respect to promote a healthy and safe environment. Take care of our crew and families! Strive for a work/life balance.

## Professional

Set an excellent example by actions, pride and professionalism. Know your job and strive to always be better tomorrow than you were today. Harness every opportunity to help others, pass on knowledge.

## Service

Always do the right thing even when no one is watching. Strive to earn the public's trust through transparency and dedicated service to our Nation, Coast Guard, Port Partners, Community and each other.

## Safety

Embrace a bias for action balanced with risk management. We are all safety observers. Continually identify safety risks and seek ways to mitigate them. If we have a mishap take time to learn from it.
